USEFUL FAMILY RECIPES.

These recipes are all from readers of the STAR and vouched for as being well worth trying:

Delicious Gingerbread—One cup of molasses, one cup of butter, two caps of sugar, one cup of sour milk, four eggs, three cups of flour, one tablespoonful of ginger, and one tenspoonful of soda.

Corn Bread-Take one quart of sweet milk, corn-meal enough to thicken, three eggs, half cup of butter, two tablespoon fuls of brown sugar, one teaspoonful of soda, and two of cream tartar; bake in a moderate oven. New Year's Cakes-One pound butter,

New Tear's Caces—One pound surier, which is three cupfuls; one pound surgar (three cupfuls) four eggs, one teaspoonial saferatus, one-half cupful water, flour enough to make very stiff. Caraway seed if you like.

Tapioca Pudding—Only Greenings or Nawton pipping anough by used one

Tapicca Pudding—Only Greenings or Newton pippins anout be used, one uesert spoonful of dry tapicca to each apple, core the apple and fill the opening with sugar and butter, strew sugar around them and fill the dish nearly up to the top of the apples with cold water. Bake and serve with cream.

Lovers' Yows—An ounce and a half

of sweet almonds, an ounce and a half of bitter almonds beaten up in a paste, with a little brandy, to prevent it citing; one pound of lump sugar, the rind of one lemon, and a little of the fuice, also the whites of two eggs. Bake in pieces the size of a walnut on white paper. When baked they will be bellow.

Cocoanut Pic-Grate one pound of Cocoanut Pic-Grate one pound of cocoanut and two state rusks; rub together one-nail pound powdered sugar and one-nail pound of butter; beat six eggs, or the whites only of twelve eggs, very light; stir them into the sugar and butter alternately with the cocoanut and rusk; add lastly four tablespoonius mik; bake in a rich puffingste. paste.

Oyster Stuffing for Turkey-Take one hundred oysters, or as many as the size of your turkey demands, wash them well and drain; roll one pound of butter crackers, or grate a loaf of stale bread; season with salt, pepper, butter, a cupor cream, three eggs and a latte aummer savory; sprinkle all over your oysters and till the turkey, which be sure to sew up quite tight. up quite tight.

Harrison Pudding—One and one-half cupfuls chopped suct, one cupiul molasses, one and one-half cupfuls chopped raisins, one cupiur sour milk, one tenspoontul soda, one teaspoontul cream tartar, or two t aspooninis baking-powder, sifted through the flour the roughly; spices, and sur as thick as for pound-cake, and boil three hours. Sange made of egg, sugar, and cream, or any Coun- other rich receipt.

Indian-meal Doughnuts-A teacupful Indian-ment Doughnuts—A teacupful and a haif of boiling milk poured over two teacupfuls Indian-meat; when it cools add two cupiuls when the corbutter, one and a half of sugar, three eggs, and a tablespoonini notineg or common; it not stiff enough, add equal portions of wheat and meat; let it rise till very light; roll it about that an fireh thick; cut it into small diamond-shaped cakes, and boil them in hot lard.

Boned Chickens-It is absolutely necessary to have a large, fine chicken, dry picked; bone the chicken carefully; take sausage-meat, according to the size of the fowl, two or three pounds, two fip, and asked him if he had a't about eggs, one-half glass Jamaica rum, and some truffus; mrx all twell together and fil firmly all the loose skin, legs, wings, crop, &c.; then cut some very thin shows of colu then cut some very thin slows of cold boiled sairpork, veal, tongue, and uncoosed ham; lay these in layers and fill the body of the fowl; must be pressed in tightly, so that the shape of the fowl is persect; then sew the skin up, pinion the legs and wings in shape; take a piece of new white must wrung out of boiling water and sew the fowl tightly in it; place it in a pot of boiling water and milk, boil until done; an ordinary-sized fow will take two hours. When cooked take off the modeling water and firm. At no When cooked take off the makin wrap; have four thin, smooth very nice boards, ay the fowl on one, nace one on each side, laying heavy weights against them; then put the controller on the top, and The congregation of the Catholic then put the congregation of the Catholic then put the congregation of the Catholic then put the congregation of the church and should be argely pressing. For success of the appearance of the beneat of the church. It will be a pleasant affair and should be argely when carving out directly across from the carving out of the carving out of the carving out directly across from the carving out of the carving ou wing to wing.

Come now and let us Reason Together.

Why do people so frequently say to Dr. Pierce, "I suppose your folden Medical Discovery curse everything?" Because it has been the practice of knavish charlatans to manufacture worthless nostrums and attempt to dape the ignorant and credulous by resontmending them to cure every form of discase. To such an extent has this been practiced that it is no wonder that many have acquired projudices against all advertised remedices. But Dr. Pierce does not advertise his standard preparations as "cure-alis," does not ciain that they will perform miracles, but alimpty publishes the fact that they have been developed as specifics for certain forms of discase for which he recomments them, after testing their elicacy in many hundred cases with the most graufying success. It is a fact known to every well informed physician that many single remedies possess several anterent properties. Quantae, for instance, has a tonic quality, when suggests its has in cases of debuilty; an anti-periosic by which it is efficacious in ague; and a febrifupe property, which readers it efficacious in cases of fever. The result of its administration will also vary with the quantity given and the circumstances under which it is employed. So, likewise, the Golden Medical Discovery possesses both pecosoral and alterative, or blood cleansing properties of the highest order. By reason of these two prominent properties it cures two classes of discases. First, those of the respiratory organs, as throat, bronchial, and lung affections, chronic coughs and asthma, and second, diseases of the blood and giantiar system, it which acted is, by its combinator of properties, suggested in cases of pulmo any consumption, pet you need not take it expecting it will cure you it so to the consument of the properties and asthman and consumed nor because it is recommended as a bloom medicane would its our cancer. It will not parform miracles, but it will cure many grave forms of disease.
